## Life goals

The Envision process considers all of your target goals and what you would ideally like to achieve. Please help us understand your goals.

1. I would like to plan for retirement at age $\qquad$ (acceptable), but I would be willing to take action (such as saving more or reducing my retirement spending goal) if it would mean I could retire at age $\qquad$ (ideal).

Note: If you're already retired, check here and skip to question 3:
2. My spouse/partner will retire at the same time I do: $\bigcirc$ Yes $\bigcirc$ No If no, my spouse/partner would like to target retirement at age $\qquad$ (acceptable), but if he or she could retire at age $\qquad$ (ideal), we would like our plans to include that possibility.
3. We would like our plan to estimate our retirement spending needs as indicated below: (check one)

We would like to plan for after-tax, annual retirement spending of $\$$ $\qquad$ (acceptable), but if we could increase our spending to \$ $\qquad$ (ideal) per year, we would like to consider that possibility.

We would like you to estimate our retirement spending based on our current after-tax income and what is normally needed to maintain our lifestyle.
4. We would like to leave an estate worth at least \$ $\qquad$ (acceptable), but if we could increase that to \$ $\qquad$ (ideal) with minimal impact on our other goals, we would like to consider that possibility.

## Education goals

Please complete the following information for each individual member of the household for whom you wish to plan to fund education goals. The Envision application defaults to public, in-state college expenses unless you indicate that you would like to target a private college or specific institution.

## Other goals

Please indicate specific spending goals that you would like to include in your Envision plan.*
Note: All "other goals" that occur prior to retirement are assumed to come out of the investment portfolio.

*Do not include basic retirement income, estate, or education goals. If you don't enter an annual increase, the goal will grow at the assumed rate of inflation.

## Annual contribution/savings

Please include contributions to your retirement plan(s), as well as any additional money being saved to your investment accounts. Remember to include any employer matching contributions.

## Social Security income

The following best describes our attitude about Social Security:

If possible, we would prefer not to be dependent on Social Security.

We would like to include estimated Social Security benefits in our Envision plan.
I am currently collecting \$ $\qquad$ in Social Security benefits yearly. My spouse/partner is receiving \$ $\qquad$ .

I expect to receive \$ $\qquad$ in Social Security benefits yearly. My spouse/partner will receive \$ $\qquad$ when eligible.

## Other sources of income

Please indicate other sources of income to be included. Note that all "other income" cash flows that occur prior to retirement are considered savings.

| To achieve our higher target ability spending for retirement, we would prefer to: |  | n/a |  |  |  |  |
| To achieve our ideal estate goal, we would be willing to: |  |  | n/a |  |  |  |
| To reduce the investment risk in our portfolio, we would be willing to: |  |  |  | n/a |  |  |
| We would like to reduce our regular savings amount; to achieve this, we would prefer to: |  |  |  |  | n/a |  |
| To meet our education funding goals, we would be willing to: |  |  |  |  |  |  |
| To meet our other goals, we would be willing to: |  |  |  |  |  |  |

## Comments

Please provide any additional information about your goals and priorities that you feel would be useful.

## Income needs

Please tell us which best describes your attitude toward income from the investment portfolio profiled in this report:

Not expecting to need income from the portfolio for several years; investment strategy should emphasize growth.
Interested in current income from the portfolio, but willing to accept a lower level of current income to have potential for long-term growth.
Primary investment goal is income, but willing to accept less potential for long-term growth in order to seek more current income.

## Risk tolerance and avoidance

Within the Envision process, we assume you would prefer to avoid risk if possible. However, it may be necessary to accept your maximum risk tolerance to meet critical financial goals. Based on the table below, identify the following:

| Ideal portfolio |
| :---: |
| (Ideally avoid risk. |
| Select one box only.) | | Acceptable portfolio <br> (Maximum acceptable risk. <br> Select one box only.) |

## Strategic allocation investment objectives

## Conservative Income

Income portfolios emphasize current income with minimal consideration for capital appreciation and usually have less exposure to more volatile growth assets. Conservative Income investors generally assume lower risk, but may still experience losses or have lower expected income returns.

## Conservative Growth and Income

Growth and income portfolios emphasize a blend of current income and capital appreciation and usually have some exposure to more volatile growth assets. Conservative Growth and Income investors generally assume a lower amount of risk, but may still experience losses or have lower expected returns.

## Conservative Growth

Growth portfolios emphasize capital appreciation with minimal consideration for current income and usually have significant exposure to more volatile growth assets. Conservative Growth investors generally assume a lower amount of risk, but may still experience increased losses or have lower expected growth returns.

## Moderate Income

Income portfolios emphasize current income with minimal consideration for capital appreciation and usually have less exposure to more volatile growth assets. Moderate Income investors are willing to accept a modest level of risk that may result in increased losses in exchange for the potential to receive modest income returns.

## Moderate Growth and Income

Growth and income portfolios emphasize a blend of current income and capital appreciation and usually have some exposure to more volatile growth assets. Moderate Growth and Income investors are willing to accept a modest level of risk that may result in increased losses in exchange for the potential to receive modest returns.

## Moderate Growth

Growth portfolios emphasize capital appreciation with minimal consideration for current income and usually have significant exposure to more volatile growth assets. Moderate Growth investors are willing to accept a modest level of risk that may result in significant losses in exchange for the potential to receive higher returns.

## Aggressive Income

Income portfolios emphasize current income with minimal consideration for capital appreciation and usually have less exposure to more volatile growth assets. Aggressive Income investors seek a higher level of returns and are willing to accept a higher level of risk that may result in greater losses.
